HELPFUL HINTS: AZTEC ADVENTURE

Selecting Rounds: The following procedure must be done quickly and accurately.

On the Title Screen, when the scroll containing the words "Aztec Adventure" is closed, press the directional pad up five times.

When Nino throws money to the other characters, press the directional pad to the right, three times.

When Nino walks to the left and is followed by the other characters (so everyone is walking to the left) press the directional pad to the left once, then press it down once.

If this procedure is done correctly, a mini version of Nino will appear to the right of the Aztec Adventure scroll. Below Nino is a square containing two numbers, by using your directional pad you may select from rounds 1-11. Choose your round quickly! As soon as you do so, the screen will advance to the round selected.

Sound Test: Press the start button. You will then see a screen with a rainbow and names as well as faces of the games characters. This is where you will access the Sound Test. Please follow the procedure below:

When the faces are on the screen, press your directional pad once to the left, twenty times to the right. Be sure to push accurately (using your finger on the pad, not a mini joy stick) on the directional pad, making direct contact.

When this procedure is done correctly, a mini version of Nino's face will appear on the screen to the right of the rainbow. Above Nino's head a square will appear. This is where the Sound Test numbers will appear. You may select from 1-7. Follow each selection by pressing button #1 on the directional pad. When you are finished listening to the music and want to start the game, select "00" and press button #2.

To destroy both Ghost Flowers in level one, you must use your sword towards the stem of the Ghost Flower. Stab the Flower three times, then move back. Allow the Flower to release it's shots, then move in for three more stabs. Keep this up for about twelve times, be sure to kill both Flowers.

To find the hidden Wishing Well in the fifth level (the Ruins) be sure to kill everything in this level. In the room with the two vases, move towards the top right hand corner of the room. When at the corner, toss anything but money at the corner, then toss one bag of money. A special fairy will appear to replenish your energy.

Good Luck!
